

### Ido Kinel Contributions

- 1.Created main graphic used for class presentation.
- 2.helped with cleaning script algorithm used by Alex to change points into lines
- 3.Added tracker line and label
- 4.created the code needed to translate unix timestamp into normal time stamps in d3
- 5.added mini graphs to show multiple day-by-day/groups view
- 6.Fixed bounds on graphs.
- 7.added interactivity to highlight groups when button is pressed.
- 8.fixed errors in data
- 9.edited survey data to fit the current modeling of data (ie: convert times to linux timestamps)
